Release Notes for Open-AudIT v2.2.7

Released 2018-09-05

Linux md5sum: b8b1d8edcad880eee4b7acf4d2cad5c8

Linux SHA256: 9690fd89aead00623f3e71f65d72bd73eb27f637409ce51ccf69dbd30362ccef

This is mostly a bug fix release with some minor improvements.

Open-Audit	Bug	Fix the widget SQL definition for Device Age (0-3+ Years)
Open-Audit	Improvement	Add a fix for non-Unix and Windows line endings when importing a CSV.
Open-Audit	Improvement	Display warning on templates if warranted (samba libs on Centos / RH 6).
Open-Audit	Bug	Fix widget for Devices Not Seen (1-7+ Days) link.
Open-Audit	Bug	Fix the widget for End of Warranty to exclude devices with no warranty date set (which is 2000-01-01).
Open-Audit	Bug	Fix attribute name in Bulk Edit (nmis_export -> nmis_manage).
Open-Audit	Bug	When processing an audit result, fix a bug when matching the array of mac addresses. Set the hostname if empty. Fix a bug when matching FQDN.
Open-Audit	Improvement	Improve Mac Model (description, form factor and class) when processing an audit result.
Open-Audit	Improvement	Add custom images directory to help -> support tests. Ignore errors for some _SERVER items.
Open-Audit	Improvement	Retrieve line cards, modules, power supplies and ports from Exablaze devices.
Open-Audit	Improvement	Add a SSH timeout config item.
Open-Audit	Improvement	Enforce limit on discovery logs retrieved.
Open-Audit	Improvement	Added extra device OIDs for use by SNMP discoveries.
Open-Audit	Bug	Fix Summaries definitions.
Open-Audit	Improvement	Attempt to use winexe-static-2 as a first preference and also use smbclient with -m SMB2 first attempts.
Open-Audit	Improvement	New winexe for SMB2 so we can now audit a SMB1 disabled Windows machine from Linux.
Open-Audit	Improvement	Escaped templates to avoid XSS
Open-Audit	Bug	Fix Ubiquiti serial retrieval via SSH.
Open-Audit	Improvement	Increase network card speed size in schema to allow for 10GB/s cards.
Open-Audit	Improvement	Allow for interface speeds greater than 4GB when discovering using SNMP (query HighSpeed MIB).
Open-AudIT	Bug	Fix device type = router when no credentials working.
Open-Audit Professional	Improvement	Place log warnings on dashboards when logging greater than default.
Open-Audit Professional	Improvement	Add a flash to indicate data at bottom of template if config option set and database export to CSV/XML/SQL run.
Open-Audit Professional	Bug	Remove a CSS rule on the dashboard page that was causing visual artifacts in Firefox.

Open-Audit Professional	Improvement	Big red warning on Discoveries create templates for RH/Centos 6 machines because of SMB2.
Open-Audit Professional	Improvement	Password mask certain sensitive config items.
Open-Audit Professional	Bug	Fix buttons for Firefox in templates.
Open-Audit Professional	Improvement	Re-enable sending credentials to OAC from the opMojo login form.
Open-Audit Professional	Improvement	Add logs to OAP/E for viewing (no redirect to OAC).
Open-Audit Professional	Improvement	Export database tables from OAP/E (no redirect to OAC).
