Errata - 3.3.2 Collectors

Apologies for a silly error when requesting a task that is for a collector.

Please edit the file c:\xampp\open-audit\code_igniter\application\models\m_tasks.php or /usr/local/open-audit/code_igniter/application/models/m_tasks.php on line 128.

Change it from:

```
                if ($result[$i]->type !== 'reports') {
```

to

```
                if ($result[$i]->type !== 'reports' && $result[$i]->type !== 'collector') {
```

Please make the change on both the Server and the Collector.
