

Home

opFlow collects NetFlow information to allow organizations to determine how much of the network is being used, by whom and in what way.

Opmantek's opFlow module will help your team rapidly reduce downtime and identify the root cause of poor network performance. Integrating seamlessly with NMIS, opFlowSP - for Service Providers - handles high volume NetFlow and IP-Fix analysis often seen on Service Provider networks.

- [opFlow 3](#)
- [opFlowSP](#)

Getting Started

Download

opFlow is available as a stand-alone [download](#).

View the opFlow product page on [Opmantek.com](#).

Installation, Configuration, and Basic Setup

- [opFlow 3 Installation Guide](#)
- [Upgrading from opFlow 2.x to 3.x](#)
- [opFlow Configuration](#)

Key Documentation

These high-level guides will help you break down configuring opFlow into manageable tasks and sub-tasks.

opFlow Basic Concepts

- [opFlow 3 Operations Guide](#)
- [opFlow 3 Scalability Features](#)

opFlow Advanced Concepts

- [Configuring opFlow Raw and Summarised Flow data](#)
- [Configuring opFlow data unit size and precision](#)

- [Troubleshooting opFlow](#) - Some tips on troubleshooting when opFlow doesn't show the expected data
- [Understanding opFlow Charts](#) - Examples to help understand information in opFlow.

- [Clean-up process for opFlow that has gotten too large](#)
- [opFlow and Cisco ASA NSEL NetFlows](#)
- [opFlowSP - Role Based Access Control \(RBAC\) Configuration](#)

Additional Documentation

Walk-Throughs

- [Router basic configuration for opFlow](#)
- [Using NetFlow/IPFIX for Anomaly Detection with opFlow](#)
- [Using NetFlow/IPFIX for Incident Response with opFlow](#)
- [Detect DDoS attacks with opFlow](#)
- [Creating Custom Applications](#)

Webinars

- [Webinar - Using NetFlow and IP-Fix to Identify Security Issues](#)
