

# Errata - 4.0.1 XSS in template

We have had a XSS issue reported in a template (thanks Thrivikram Gujarathi).

The fix is available on github at <https://github.com/Opmantek/open-audit/commit/7311d9799960a88d711c20ad0c2f8d8648d933e9>

The XSS requires the user be logged in **and** click a malicious link sent by a third party.

Apologies for any inconvenience.

Mark.
