

# Release Notes for Open-Audit v4.3.2

Released 2022-01-27

~~Linux SHA256 - 3ebb7afa589b9fee8a9581e615e701439765458ff2618e2f6a0aaf5e8cae2ba8~~

~~Linux MD5 - ce21e79ea5e1dd23f0255fbc02a24b73~~

~~Note - re-released on Monday the 31st January as OAE-Linux-x86\_64-release\_4.3.2-1.run. The hashes below match this release.~~

~~Linux SHA256 - 97332baa3061e55e114ff10e21f3b260fe0e7a32bf83541350b4ecf478e0deb7~~

~~Linux MD5 - d11eee13b402853d76d32859f86e3264~~

Note - re-released on Thursday the 3rd February as OAE-Linux-x86\_64-release\_4.3.2-2.run. The hashes below match this release.

Linux SHA256 - f2878e63d6f664ac74c07dfbb198af8214d61900e5d8982a7220e1f6bcff6e5b

Linux MD5 - e424fd48ff7b92563a1e19251ccc51f6

Open-Audit 4.3.2 is a bug fix release targeted at Linux installs.

Please note - If you have edited the Default Integration, it will not be fixed. If you have **not** edited the Default Integration, it will be replaced with correct field names. If you would like a fresh new Integration, the same as the default, just create a new one. The fields on the create form have also been updated. Apologies for any inconvenience this causes.

Version	Type	Collection	Description
Community	Bug	Devices	Add SCSI to list of valid sub-resources.
Professional	Bug	All	Do not double escape the breadcrumbs.
Professional	Bug	Devices	Fix HTML attributes to enable editing nmis_customer and other related fields on device details screen.
Enterprise	Bug	Integrations	Enable passing correct attributes to delete an individual integrations field.
Enterprise	Bug	Collectors	Enumerate the correct array (discovery_scan_options, not locations) for collector request.
Enterprise	Bug	Collectors	Use correct argument list when creating local discovery_scan_options from collector_request data. Was missing org_id and ping.
Enterprise	Bug	Integrations	Fix default credentials fields names for Integrations Create form (see above).
Enterprise	Bug	Integrations	Fix default integration if unedited (see above).
Community	Improvement	Discoveries	If we detect an open filtered port AND we have open filtered set to 'y' in the discovery, record it as an open port.
Professional	Improvement	Auth	Silence Mojo deprecation warning on console.
Professional	Improvement	Devices	When required, add a horizontal scrollbar on the devices list template for right side overflowing columns.
Enterprise	Bug	Collectors	<b>NOTE - 4.3.2-2 only.</b> Fix the discovery create SQL in the Collector Request sub. Disable blessed subnets when a Collector is registered.
